METODI SIMEONOV

I have over 9 years of hands on experience in the IT Servies industry with large cross-cultural projects in various domains. I have worked in a variety of roles ranging from support engineer to BI developer. I like collaborative environments where I can learn from my peers.

Currently searching for a position that allows me to build tools leveraging a combination of visualization, machine learning, and software engineering to help people explore and understand their data in new and useful ways.
