METODI SIMEONOV

I have 10 years of experience in the IT Services industry with background in large cross-cultural projects in multiple domains. I have had the opportunity to lead projects in traditional and sequential, ITIL framework and as of recently, I have been involved in delivering Agile MVPs with quick turnaround time.

I am always looking for opportunities that allows me to build tools leveraging a combination of visualization, machine learning, and data engineering to help people explore and understand their data in new and useful ways.
